PROFESSIONAL SUMMARY

Motivated and dependable IT professional seeking a challenging opportunity to apply and expand my technical knowledge, education, and problem-solving skills in a dynamic work environment. Passionate about contributing to team success, delivering user-focused solutions, and continuously improving through hands-on experience. Strong communicator with a positive attitude and a commitment to excellence in both individual and collaborative roles.

EXPERIENCE

Payment Associate - Tech City BPO

Present

- Process and verify customer payments while managing billing records in company systems.
- Assist customers with payment-related queries and ensure compliance with financial policies.

Data Entry Operator – Print House

Feb 2017 - Jan 2020

- Entered and updated customer/order data accurately in company systems.
- Maintained records and ensured timely completion of daily data entry tasks.

PROJECTS

Online Marketing Store system

- Developed an Online Marketing Store system to automate product listings, orders, inventory, and customer account management with integrated tracking, reporting, and notifications.

Technologies : PHP, HTML, CSS, MySQL

Online Property Management System

- Online Property Management System is a Java project to manage properties, tenants, and leases efficiently. It uses Java Servlets and MVC architecture for better organization and usability.

Technologies : Java, HTML, CSS, Bootstrap, MySQL

Cloud kitchen System

- Built a Cloud Kitchen System using the MERN stack to streamline food ordering, delivery tracking, and menu management for efficient kitchen operations.

Technologies : MERN Stack (MongoDB, Express.js, React, Node.js)

Car Rental System

- Designed a Car Rental System UI in Figma with intuitive navigation, clear booking flow, and responsive design for all devices.

Technologies : Figma

Personal Finance Tracker App

- The Personal Finance Tracker App UI was created in Figma to help users easily track income, expenses, and budgets. It offers a clean, simple design focused on clear visuals and smooth navigation.

Technologies : Kotlin, Room Database , Android Studio

Online Perfume Store

- Our website offers a seamless shopping experience for perfume lovers. Explore a curated collection of premium scents with secure checkout and fast delivery.

Technologies : React.js , Tailwind CSS , Vite

PureBrand Dress System

- Developed the PureBrand Dress System to manage product listings, orders, and customer interactions for an online clothing store

Technologies : React.js , Tailwind CSS , Vite

Music App

- A sleek music app that lets users stream, search, and enjoy their favourite songs anytime. Built for smooth listening and a personalized audio experience.

Technologies : Figma

EDUCATION

BSc (Hons) In Information Technology

Reading

Sri Lanka Institute of Information Technology (SLIIT)

3 year 1 semester

GCE Advanced Level Examination - Technology Stream

2021

Muslim Madhya Maha Vidhyalaya | Passed All Subject In One Sitting
